

# Meeting Minutes – Fifth Meeting

29th of October 2015

**MEETING START TIME:** 11.15am

## **MEETING PARTICIPANTS:**

Daniel Blackwell

Jedrzej Stuczynski

Farbas Miah

## **UNABLE TO ATTEND:**

N/A

## **Overview:**

Since the PLORAS team member for our current tasks is about to go on leave for November, we focused on the project structure side of things. We discussed the structure of our project website as well as any necessary changes to it. Also, we have started research on the language in which we are going to write our wrapper application. Currently we are considering C++ with a framework for UI creation, Python or creating a web-based application. We are in the process of identifying advantages and disadvantages of each of the possibilities. What is also important is that we have discussed the ways of undertaking the spreadsheet task.

## **TOPICS OF DISCUSSION**

1. Team website decisions
  - Structure of the website
  - Additions and amendments to current website
  - Key topics and sections for website
2. UI creation for project application ideas
  - Use C++ with a framework
  - Python
  - Web based application
3. Spreadsheet production for brain scan comparisons
  - Use MATLAB to automate it
  - Complete this task before next client meeting
  - Understand exactly what is required to be automated

## **FURTHER ACTIONS**

Advantages and disadvantages were gathered for each UI idea.

Bootstrap was used for the team website and a template was set up with sections for all the topics that shall be covered in the future.

Automating PLORAS

Team 32: Daniel Blackwell, Jedrzej Stuczynski, Farbas Miah

**MEETING END TIME:** 12.30pm
