Overview:

This meeting was set up just before reading week began to ensure we were all up to date with the different aspects of the project. We all attended this meeting which lasted around 30 minutes. During this we managed to communicate our ideas for the final user interface which included how we would go about programming it. For the team website, we also gained feedback from one another to see which parts of the design could be improved and what content should be added.

TOPICS OF DISCUSSION

1. Catch up on all aspects of the project
 - Team website status
 - Spreadsheet automation status
 - Advantages and disadvantages of UI application ideas
2. UI creation for project application decisions
 - Web based application ideal
 - Possible usage of Django as a framework
 - Shall need to carry out HCI analysis

FURTHER ACTIONS

Brain scans comparisons on spreadsheet automated.

Team website updated and minor adjustments.

MEETING END TIME: 4.30pm
